

Rishav Jain

Employee Id: 50045281

---

**Internship Topic:** Data Analytics

**Technology / Skillset / Tools Utilized:**

- Programming Language: Python
- Libraries: Utilized Pandas and NumPy for data handling and manipulation, and Seaborn along with Matplotlib for data visualization.
- Scikit-Learn: Implemented various machine learning algorithms for predictive modeling, including model evaluation and fine-tuning.
- Streamlit: Developed interactive and user-friendly frontends to showcase analytical results and insights.

**Key Learnings Extracted:**

Development of Data Pipelines: Designed and implemented robust data pipelines using Scikit-Learn, ensuring efficient data processing and model training.

Deployment of Predictive Web Services: Successfully deployed a predictive web service, empowering stakeholders to make informed, data-driven decisions based on real-time insights.
